Data sheet

Tray trolley TWF - 3x10 GN lengthways

The ideal and comfortable transport solution for trays.

More Info

The tray trolley, the optimal transport or distribution product for station catering, and equipped for various other applications. Meals can be prepared and served quickly and easily at the right time. The trolley base is optimally protected by the surrounding impact protection made of solid material PE 500. Comprehensive insulation is ensured by the double-walled dispensing area as well as the doors, roof, and floor.

The high-quality stainless steel tray trolley for transporting trayed meals on Euronorm trays (530 x 370 mm) and Gastronorm trays (530 x 325 mm). The deep-drawn tray support ridges are equipped with a tilt protection. The tray trolley is individually expandable with various accessories, including a fully welded gallery, a coupling-drawbar system, card holders, or a surrounding impact protection on the wagon roof.
