Data sheet

Induc. cook.kettleS-WISS|PLY 86L trolley1

More Info

Energy-saving & mobile induction cooking kettle with SWISS|PLY multilayer base.

The energy-efficient induction cooking vessel can be used universally for cooking, simmering, frying, steaming and deep-frying. The vessel is also mobile and easy to use with steplessly adjustable power levels 1-11 and a capacity of 86 litres.

The difference in terms of energy efficiency to conventional cooking vessels is in the material technology of the induction plate. Due to the integrated SWISS-PLY multi-layer base, the heat is conducted extremely quickly and distributed evenly over the plate with optimal energy utilisation of 16 amps and 10 kW.
The well-insulated and secure lid has a pressure release vent, snap-in locking clip and an integrated hinge, can be securd for an opening angle of approx. 70°.

65 litres of water can be heated up to +98°C in only around 50 minutes and the multi-layer plate reaches a grill temperature of +250°C in approx. 4 minutes.

With the energy-efficient induction cooking vessel, food can be cooked directly in the base of a large container with a capacity of 86 litres, but can also be cooked easily in a smaller container with inset GN containers with a SWISS-PLY multi-layer base or thermoplates® made of SWISS-PLY multi-layer material.

TECHNICAL SPECIFICATIONS

Induc. cook.kettleSWISS|PLY 86L trolley1

100 YEARS MADE IN GERMANY SINCE 1925

TECHNICAL SPECIFICATIONS

Material	stainless steel 1.4301
Dimensions	1208 x 800 x 1028 mm
Capacity	86 L
Weight	130 kg
Connected load	10 kW
Rated voltage	3N AC 400 V 50/60 Hz
Plug type	CEE-Plug 400V/16A
Cable length	2500 mm
Protection class	IPX4
Work surface	SWISS-PLY
Order number	**74 05 01 01**

BENEFITS

Rustproof, high-quality, hygienic stainless steel (interior and exterior), interior chamber is seamlessly deep-drawn and welded.

Extremely efficient & highly conductive SWISS-PLY multi-layer base for energy-saving & uniform heat distribution.

Double-walled and insulated lid reliably sealed by a robust all-round rubber seal.

Two Teflon plugs for grilling and cooking processes, with absolute safety through the built-in overheat protection of the induction coil.

Firmly screewed mobile trolley with pushing handle, brake system, stable carrying handles at the front & back, as well as insulated handle and lid vent.

Suitable for outdoor use, splash-proof (IPX4).

With a drain pipe bend for pristine cleaning, can be removed quickly & easily without tools.
